Education

Faculty of Automatic Control and Computer Science, Bucharest   Oct 2023 -
- **Coursework:** Object-Oriented Programming, Data Structures and Algorithms, Operating Systems, Physics, Numerical Methods Analysis

Gheorghe Lazăr National College   Sep 2019 - June 2023

Projects

Tinder Swiping Bot
- Developed an automated tinder bot that swipes left/right based on specific criteria like name or age.
- Tools Used: Python

Optimal Flight Calculator
- Utilized web scraping to search for specific flight routes, optimizing for both time and price.
- Tools Used: Python

Lan Party Organizer
- Designed and implemented sophisticated algorithms to manage multi-level tournament rounds and eliminations, leveraging recursion, sorting, and optimization techniques.
- Tools Used: C

github.com/Katchy21/Tema1PA ↗

Personal Website
- Built a personal website that highlights my achievements.
- Tools Used: HTML, CSS, JS

Skills

Programming Languages: C++, C, HTML, CSS, JavaScript, Python, MATLAB

Soft Skills: Critical Thinking, Public Speaking, Adaptability, Teamwork, Leadership skills, Time Management, Creativity

Software Development Skills: Git, Github

Hobbies

- Engaging in physical activities such as running, basketball, and football.
- Passionate about nutrition, healthy eating, and overall wellness.
- Experience in modeling with Shine Casting.
